

## GSM 900-1800MHz ANTENNA T-AT045

### SPECIFICATIONS

|                        |                               |
|------------------------|-------------------------------|
| Base material          | Hytrel                        |
| Colour                 | Black                         |
| Weight ( g )           | 710                           |
| Base Dimensions ( mm ) | Height: 27<br>Diameter : 33.5 |
| Base connector :       | FME m.                        |
| Temperature ( °C )     | -30° - +80°                   |

### TECHNICAL DATA TELEPHONE

|                    |                   |
|--------------------|-------------------|
| Antenna type       | Collinear Antenna |
| Frequency range    | 880 ÷ 960 MHz     |
| GSM - ETACS-NMT    | 1710 ÷ 1880 MHz   |
| PCN-GSM            | 50                |
| Impedance ( Ohms ) | 20                |
| Max power ( W )    | Less than 1.5     |
| V.S.W.R.           | Vertical          |
| Polarization       | Omnidirectional   |
| Emission           | 1                 |
| Rod section        | 275 ± 15          |
| Rod lenght         | 90°               |
| Rod elevation      | Sarink 4155 Black |
| Rod material       | 5                 |
| Gain ( dBi )       | RG58mm. 2000      |
| Cable              | SMA m.            |
| Connector          |                   |
